

## PROJECT DESIGNER

At **blue architecture + interiors** we focus on great design, great service, and great results. We have deep experience in housing, mixed-use, healthcare, and hospitality design. Our downtown office is a block from the waterfront, and two blocks from the Bremerton-Seattle ferry in the beautiful northwest.

Focusing on our clients and every aspect of project design through project completion is important to us, as is supporting a casual office environment. We strive to perpetuate a familial and relaxed atmosphere, focused on doing great work and developing the careers of our team.

We are seeking a **DESIGNER** with 2+ years of professional experience skilled in project design, presentation graphics, programming, coordination with consultants, and confirmation of conformance with all applicable codes. A “can-do” approach and willingness to learn are a must on our team.

### Responsibilities:

- Interpret client needs and translate them into workable design concepts and construction systems; maintain quality technical and design control
- Develop design and construction documents for projects ensuring the incorporation of the design intent, utilizing Revit and/or AutoCAD software
- Work with our team to develop construction details, research materials & systems, participate in product & code research, and incorporate regulatory requirements into technical documents  
Participate in the construction administration of projects

### Skills and Competencies:

- Strong design skills, including 3-D modeling and presentation graphics
- Familiarity with construction materials, methods, standards and codes, including IBC codes
- Construction documentation experience is preferred
- Revit (including modeling and documentation) and AutoCAD
- Ability to effectively meet deadlines, strong organizational skills
- Work independently or with a team to complete projects on sometimes aggressive schedules
- Ability to communicate clearly and concisely; both verbally and in writing
- Hand sketching, 3D modeling and rendering software, such as SketchUp and Lumien
- Photoshop, Illustrator and InDesign graphic software abilities are a plus

**Education:** Bachelor of Architecture or Master of Architecture from an accredited university and

**Experience:** 2+ years of professional architectural experience

Blue offers a competitive salary and benefits package, a relaxing and friendly work environment, and an opportunity to gain experiences on a wide range of project types and scales. Team members are offered flexible hours, comprehensive benefits, including medical, dental, vision, 401K and paid time off. Salary is commensurate with experience.

Qualified and interested candidates should submit resume, cover letter and work samples to Alma Sisk at:
